Director of Communications

Chief, Management Staff

Request for Vault Area in the Records Center

1. It is recognized that compartmentation of the Records Center into special vault areas lessens effective utilization of the total storage space. However, since a precedent has been established in providing such vaults for both the DD/P area and Office of the Comptroller, approval of the attached request from AD/CI is recommended as a matter of consistency.
2. Returned herewith is your memo of 20 January 1956 with attachment.
